These studies provide additional support to the contention that the microencapsulated product has a minimal environmental impact. We respectfully request that these studies and others submitted earlier (MRID#'s 41885201-02-03-04) be reviewed as they pertain to DowElanco petitions for turf and ornamental use patterns of the subject product.

Please contact either myself (317) 870-7270 or Mike Melichar (317) 870-7273 if you have any questions regarding these studies.
